Floor Plan 3

Wooden window accents bring a rustic flavor to this warm Santa Fe design. Double doors open to the foyer: to the right, a vaulted dining room is enhanced by bright multipane windows. The study opens to the left through stylish French doors. Ahead, the vaulted great room ushers in natural light. An efficient kitchen easily serves the bayed breakfast nook for simple casual meals. Two family bedrooms share a full bath, creating a quiet zone for the master suite. A corner whirlpool tub, oversized walk-in closet, and sliding-glass-door access to the lanai make this retreat a true haven.

Features
